

(a) Strategic planner  
*STARDOJO*

**Step1: Observe+  
Reflect+Plan+Act**  
Long reasoning ⌚

**Step4: Recover  
from step1, but  
costly**  
New Obstacle ⌚

**Step7: Clear  
obstacles, but  
slow**  
Progress is slow ⌚

(b) Reactive planner  
*REACT-like*

**Step 1: Quick action**  
Cheap and fast ⚡

**Step 7: Wrong tool  
/wrong direction** ⚡  
No global checking

**Step 7: Repeated  
local loop.**  
No progress 😞

(c) SPIKE (ours)  
*Adaptive Dual-controller*

**Step 1: Strategic  
planning**  
Collect info + plan  
next T steps

**Step 4: Reactive  
Override When  
Necessary.** ⚡  
New Obstacle

**Step 7: Strategic  
Replan & Reactive  
execution**  
Rapid Execution 👍
